## FOREWORD

This Gazetteer Supplement contains corrections to 2,075 entries in the BGN gazetteers for the countries of Asia. Coverage does not include Cambodia, Laos, the Republic of China (Taiwan), Hong Kong, or Macao, for which new gazetteers are in preparation.

These change lists are not part of the normal revision schedule and no attempt has been made to research all names in the gazetteers concerned nor to add the many names accumulated in the Board's central names files since publication of those gazetteers. Only those errors and name changes which have come to the attention of the Board and/or its staff are contained herein. Some new names have been added where they serve to clarify a change or deletion in a gazetteer entry. For example: the reorganization of an administrative division into two new divisions requires deletion of the existing gazetteer entry and substitution of entries for the newly created divisions. No attempt has been made to correct area code numbers for all features affected by changes of administrative divisions.

With few exceptions, the Indonesian name changes, additions and deletions listed herein reflect the administrative organization as of July 1971. Many of the new forms are the result of systematic changes in generic terms used in the names of administrative divisions.

The creation of the new state of Bangladesh will undoubtedly affect many of the names for that area now contained in the BGN gazetteer of Pakistan. Changes affecting the major political entities are noted specifically herein.

As an interim measure, the user should interpret all entries in the gazetteer or this supplement bearing the Area Numbers 45250 through 45254 as now being places and features under the sovereignty of Bangladesh.

In the cases of international features east of 88° East longitude a reference to Pakistan should be replaced by the name Bangladesh.

### Interpretation of Entries

It will be noted that certain BGN gazetteers are divided into sections: e.g., Malaysia has subsections for West Malaysia, Singapore, Sabah, Sarawak, and Brunei. To facilitate posting of changes

in gazetteers, the lists in this supplement follow the same format as the original gazetteers. A subsection not listed in the Table of Contents requires no change.

The column designated "Gazetteer Entry" contains all significant data for that entry as recorded in the gazetteer. Only minimal information is given in the right-hand column - usually only the element of the entry which has been changed. However, where any change has been made in the spelling of the name itself, the full form of the presently approved name appears in the column designated "Change To".

No attempt has been made to correct gazetteer cross-reference entries; nor have cross-references for new names been included herein.

#### Designation

Designation codes are used in the right-hand column only if adequately explained in the related gazetteer; otherwise, the designation is written in full.

#### Reporting of errors

It is requested that all who use this gazetteer supplement aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
